Your FSA PLP Resource

Agricultural Loans via **agCredit.bank**

Farmers and Ranchers have always looked to us for loans. The pressures of volatile prices and increasing expenses demand that we be far more than just a place for a loan. In times when careful management can mean the difference between success and failure, First National Bank of Chadron can provide the guidance to help ensure your success. **agCredit.bank** is our new remote agricultural credit application designed especially for you - our agricultural customers. You can now apply for new loan accounts through **agCredit.bank**. By registering, you will have access to **agView** a suite of excel based forms to help you plan for the financial future of your farm, ranch and/or agri-business.

Preferred Lender Program

In 1999, First National became the 28th bank in the United States to be granted Preferred Lender Program (PLP) status by the Farm Service Agency (FSA). PLP status allows the bank to streamline the FSA guarantee process (via **agCredit.bank**) by using the same financial information, underwriting, and servicing procedures it would use for unguaranteed loans. If you are interested in finding out more about the PLP, please **Contact** a loan officer.
